

GAS FURNACES

FUJITSU

FF***PS92

Gas Furnace

EFFICIENCY:
92% AFUE

The Fujitsu FF***PS92 Gas Furnace has all the right features to create a comfortable home for you and your family. Our furnace is also quiet, so you can stay focused on what matters most.

RELIABILITY

We're serious about the quality of our products. That's why our gas furnaces are engineered with the exclusive Direct Spark Ignition System which is the most reliable ignition system in the industry and ensures that your furnace will light right every time. And, the PSC motor is sealed for long life.

PEACE OF MIND

In addition to many features to ensure years of reliability, our gas furnace is also backed by a 10 year conditional parts and 20 year heat exchanger warranty.

WE DID THE WORK SO YOU CAN STAY COMFORTABLE

Our gas furnace is designed to provide your home with reliable, quiet comfort for years to come.

RELIABILITY IS ESSENTIAL TO YOUR HOME COMFORT.

Our Gas Furnaces come standard with the Direct Spark Ignition System, which is one of the most reliable ignition systems available today. This technology is the same proven design used in commercial HVAC equipment and gas home appliances.

PROTECT YOUR HOME

Our gas furnace has a water management system and will shut off your furnace when a drain is blocked, preventing water spillage and potential water damage to your home. It also prevents seasonal start-up issues, which means fewer warranty claims. All this and great warranties means fewer repair bills and more cozy nights at home.

QUIET OPERATION

The heat exchanger design provides improved airflow and reduces operating sound, making it one of the quietest furnaces on the market. And because it's high-efficiency, your monthly energy bill will give you even more reasons to smile.

FAST AND ACCURATE DIAGNOSTICS

Our gas furnace features a 7-segment alphanumeric LED display that simplifies troubleshooting. Just in case there's a need, service calls are faster, which ultimately saves you money.

BENEFITS AT-A-GLANCE

EFFICIENCY:
92% AFUE
