

Get up to \$10 off the Nest Learning Thermostat (4th gen) this cooling season.¹

Save on Nest's smartest, most advanced thermostat yet at your local stocking distributor, now through May 31.¹

The next-gen Nest Learning Thermostat. Designed with pros in mind.

Works with more systems than any other Nest thermostat.

It's compatible with up to 4H 2C, including heat pump, ventilation, and central humidifiers and dehumidifiers.

Helps you build long-term customer relationships.

HVAC System Health Monitor looks out for system issues and can send customers an alert with your contact info if something's wrong.²

Quick and easy to install.

With Automated Pro ID, your technician only has to enter your Pro ID once, and their phone will remember it and automatically add it on future installs.

A big opportunity for your business.

Heat pumps are in demand – and Nest thermostats make them even better, with intelligent features built in to maximize comfort and savings.^{3,4}

Don't miss out on the benefits of being a Nest Pro.

Earn reward points with every install, get VIP technical support, and expand your business with training and marketing materials. Sign up today at g.co/nestpro

¹ Ends May 31, 2025 at 11:59pm PT; while supplies last. Offer cannot be combined with other offers, is not transferable, and is not valid for cash or cash equivalent. Terms and restrictions may apply. ² List of eligible HVAC systems is available at g.co/nest/hvac-monitoring. Alerts can notify users of a potential issue with an eligible HVAC system. They're meant to provide helpful information, not an endorsement, representation, or warranty of any kind about the health of an HVAC system. HVAC System Health Monitor is only available to registered Nest Pros. A person with legal signing authority for the Pro company can register for a Pro ID at g.co/nestpro. HVAC system alerts will surface the information of a Pro company if the Pro company is enrolled in HVAC System Health Monitor and a Pro ID is entered on the thermostat. ³ Nest thermostats are not compatible with heat pumps that require a special closed protocol communicating thermostat.
