

# Universal TEV Replacement Kit

For Residential AC & Heat Pumps

Sporlan's **Universal TEV Replacement Kits** come packaged with everything AC technicians need to complete the installation:

- TEV with ODF connections
- Adaptors that fit the most common evaporator inlets (Chatleff and Aero-style)
- Bulb strap
- Bulb insulation tape

Since most of today's residential equipment utilizes Chatleff connections on the indoor coil, Sporlan also offers a Chatleff TEV kit, saving the cost of the extra adaptors.

Each valve comes with a 30" long capillary tube equalizer with flare nut. The single pushrod balanced port design ensures precise pin/port alignment, maintaining superior superheat control at wide load conditions.

## Features and Benefits

- Replaces all major residential air conditioning OEM valves
- Single Pushrod Balanced Port construction works exceptionally well under wide load conditions
- Built-in check valve allows reverse flow on heat pump applications
- Easily adjustable Superheat setting
- Long lasting, durable stainless steel diaphragm and weld design
- Simply retrofit existing low grade SEER or mismatched systems

ENGINEERING YOUR SUCCESS.
