THE GOOD STUFF

OTHERWISE KNOWN AS THE TABLE OF CONTENTS

Calling all doers and dabblers, thinkers and tinkerers...
keep on creating, experimenting and exploring. We'll continue
to imagine new ways to bring light to what you do.

THE TECH

THE GEARS AND GUTS THAT GET IT GOING

In a world of rapidly changing technology, keeping up with the latest trends is hard, but doing so only takes you as far as someone else has already gone. At NEBO, we like to explore uncharted territories. That's the trailblazer mind-set. What makes NEBO better? What makes NEBO different? The answers can be found in our technology, where instead of just asking why, we ask "why not?"

OPTIMIZED C·O·B

Designed for both industry-leading brightness and zoom capability, Optimized C·O·B provides brilliant illumination in spot mode, and a perfectly dispersed flood light beam with our integrated OC Technology.
SMART POWER CONTROL

Smart Power Control creates a seamless transition through light modes to extend battery life.

OC™ TECHNOLOGY

OC (Optimized Clarity) Technology creates a perfectly dispersed beam of intense, pristine light that is as bright on the edge as it is in the center when used in flood mode.

FLEX-POWER™ TECHNOLOGY

Flex-Power provides operation with rechargeable batteries or disposable alkaline batteries.
