HYBRID/RIGID COMPONENTS

TOP COMPONENTS FOR RHINO RIGID AND HYBRID LINERS

Hybrid/Rigid Cap with Screen and Windguard

This universal rain cap is designed to keep water from rain and melted snow from coming into your chimney liner. The included screen and windguard assist with preventing large debris and critters from entering your liner as well. No more hassle trying to find the right component.

SIZE	3"	4"	5"	5.5"	6"	7"	8"	9"

Heat-Fab® Saf-T Liner

304 ALLOY | HEAT FAB SAF-T LINER PAGES 28

Rigid Stainless Relining Pipe

- Economical liner for straight chimneys
- Seam-welded, 24-gauge stainless steel
- Can be used as a connector pipe
- Listed to UL 1777 Standard with 1" clearance with Saf-T Wrap
- 304 alloy has Lifetime Warranty for woodburning applications

Saf-T Liner comes pre-drilled with pop rivets. For insulation, use Heat-Fab Saf-T Wrap — aluminum-jacketed sections of ceramic blanket that snap and lock around your pipe, see page 84. You can also order 6", 7", and 8" diameter 304 alloy Saf-T Liner in pre-insulated 48" lengths.

	Part #	—	—	—	—	—	—	—	—

Adjustable Lengths

- Telescope from 50" to 90"
- Use at the top of a relining installation

Slip Connector

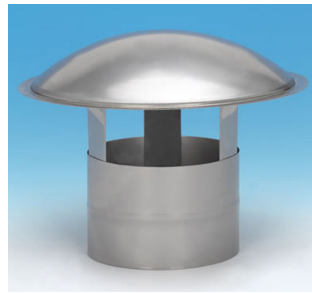

- Gives a smooth, secure fit where standard lengths don't come out exactly right.
- Male end slips inside the next section of pipe as far as necessary. Non-slip end is the female end.

Saf-T Liner Top Components

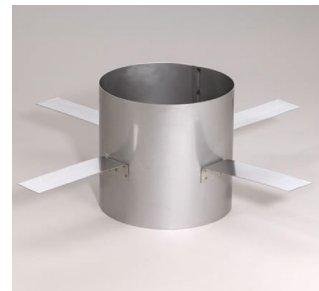

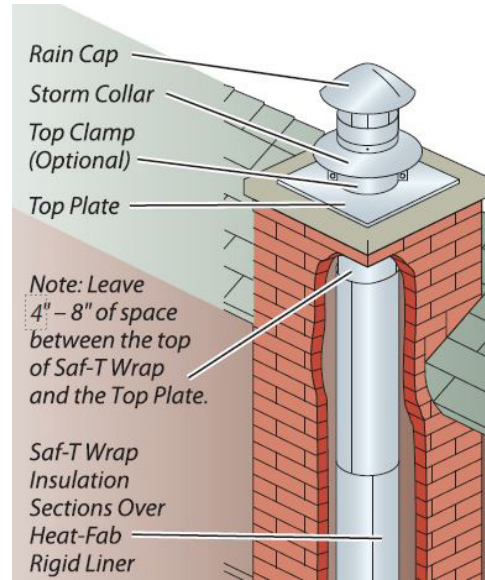

304 ALLOY | HEAT FAB SAF-T LINER PAGES 28

Guardian Cap

Rain Cap

Chimney Top Adaptor Sleeve

- Use to finish the top of your 6" liner installation with a mortar crown.
- With thermal expansion, the installed liner slides up and down through this chimney top adaptor sleeve.
- 5" tabs rest on top of the masonry chimney, centering the installation while you pour your mortar crown.

Saf-T Liner Insulation

HEAT FAB SAF-T LINER PAGES 28

Saf-T Wrap

To meet its UL1777 Listing Saf-T Liner must be wrapped with Saf-T Wrap. Just snap these aluminum-jacketed sections of ceramic blanket insulation around your Heat-Fab Saf-T Liner pipe.

Each 24" section is constructed of corrosion-resistant aluminum with a 1/4"-thick ceramic blanket liner.

- In the upper left-hand corner of the photo is a section of Saf-T Wrap standing alone.
- To the right of that the Saf-T Wrap stands loosely around a 24" section of Saf-T Liner. Crimp the top, remembering to leave 4" – 8" of liner uninsulated below the top plate.
- Pictured, bottom left, is a 24" section of Saf-T Liner with the Saf-T Wrap snapped and locked in place.
- Pictured, bottom right, is a Heat-Fab tee with a special-notched tee section of Saf-T Wrap.

Hybrid Chimney Liner

Olympia's Hybrid chimney liner is made from the highest quality 316L stainless steel. The smooth interior means no restriction to draft and less build up of creosote. It is also extremely flexible and weighs less than a heavy wall liner.

- Manufactured from certified 0.010" thick Stainless Steel
- No memory
- Smooth interior for less turbulence and better draft
- Ability to downsize the diameter of the liner in certain situations
- UL/ULC listed to UL 1777 & ULC S640 standards
- Forever Warranty™
- Available as Pre-Insulated Liner
- Can be ovalized to your specifications
- 304L alloy for wood and pellet
- 316L alloy for oil, non-condensing gas, and coal

Rhino Rigid® Chimney Liner

Key Features:

- Smooth interior for less turbulence and better draft
- Expanded ends mean better flow
- High-quality stainless steel, 316L and 304L alloys
- 316L alloy for oil, non-condensing gas, and coal
- 304L alloy for wood and pellet
- Smooth-weld seams seal gases and moisture completely and keeps pipe perfectly round to guarantee a perfect fit every time
- Offers the most efficient venting due to turbulence
- Available in round and custom shaped to oval, rectangle and square
- Made in the USA
- Forever Warranty

Selkirk® Flexi-Liner®

FLEXIBLE GAS RELINING SYSTEM

Flexi-Liner® Aluminum Gas Relining Pipe

- 2-ply, 3003 alloy aluminum
- Available in kits, shown at left. Each Flexi-Liner Basic Kit includes:
 - Liner •Round top
 - 16"x16" flashing with 3" tall collar • Fastener
 - Mortar guard • Instructions
- In addition, the 5.5" Kit includes a 5.5" to 6" single wall vent connector.
- Listed to UL 1777 Standard for gas-fired appliances with an AFUE of 83% or less
- Limited Lifetime Warranty
- Gas-tight seam

Flexi-Liner's super flexibility makes installation easy, even in challenging chimneys. We recommend insulating this liner with Flexi-Sleeve to further minimize condensation or contact with chimney contaminants.

The outside diameter is approximately 3/8" larger than its inside diameter

Aluminum Tee

- Use when two commonly vented appliances are on opposite sides of the chimney

B-Vent Adaptor

- Connects to any brand of B-Vent pipe

Flexi-Sleeve

Designed only for use with Flexi-Liner Use it when:

- 1) The flue gas temperature is below 280°F at the thimble / breaching.
 - 2) Large portions of the chimney are located on the exterior of the house.
 - 3) The liner is venting fan-assisted appliances.
 - 4) The flue cavity is much larger than the liner.
- Sizes are available to fit 3" – 6" diameters. For 7" Flexi-Liner, slit and overlap two sleeves lengthwise.

Aluminum Liner

Aluminum Liner

Key Features:

- UL listed and tested to UL 1777 for gas
- 15-year warranty
- Quality product for gas venting

UltraPro™ and Pro™ Pre-Cut Liner

316Ti ALLOY

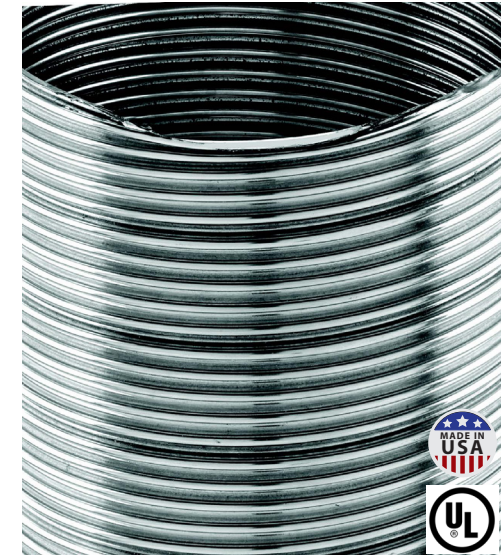

Super flexible chimney liner made from 316Ti stainless steel for an extremely durable liner.

- Easy to handle, installs faster
- 316Ti alloy for wood, pellet, oil, non-condensing gas, and coal
- Highly crush resistant
- OD 3/8" larger than ID
- Patented roll-lock, gas-tight seams
- Listed to UL 1777 Standard for Zero Clearance and ULC S635-00
- Lifetime Transferable Warranty

UltraPro™ Pre-Cut Liner

304 ALLOY

Super flexible chimney liner made from 304 alloy stainless steel for an extremely durable liner.

- Easy to handle, installs faster
- 304 alloy for wood and pellet
- Highly crush resistant
- OD 3/8" larger than ID
- Patented roll-lock, gas-tight seams
- Listed to UL 1777 Standard for Zero Clearance and ULC S635-00
- Lifetime Transferable Warranty

INSTALLS IN HALF THE TIME OF OTHER LINERS - PATENTED INSULATION SYSTEM

Axwood Direct Connect Stove Top Adaptors

- The original insert adaptor – Patented
- 24-gauge, 304 alloy stainless steel
- Only 4 1/2" high

Custom Axwood adaptors available

Adaptors are available with either a rectangle or a round bottom opening. Both feature a lip on the upper collar to facilitate pipe installation.

Stock adaptors feature a 19° take-off. The **T-bolt fastener** set secures adaptor to insert for rectangular-based adaptors.

Clockwise from left: rectangle-to-oval, round-to-round, rectangle-to-round

10.5"	—	—	—	—	—	—	—	11.9" (94 in ²)	13.4" (110 in ²)
11"	—	—	—	—	—	—	—	—	13.2" (112 in ²)
11.5"	—	—	—	—	—	—	—	—	12.9" (112 in ²)

Custom ovalizing does not produce a perfectly even oval shape: it crimps some liner ridges, and it may put a slight twist in the liner. These variations do not affect the liner's integrity. Ovalizing a liner reduces its cross-sectional area.

HomeSaver® Liner Kits

THE ESSENTIAL TOP-TO-BOTTOM LINER SYSTEM

Each kit contains:

- UltraPro Liner
- 13" x 13" Pyramid Collarplate
- 13" x 13" Pyramid Collarplate
- Collarplate Rain Cap
- Short Body Tee with 10" Take-off
- Tee Cover

Exclusive, patented HomeSaver liner

- Easy to handle, installs faster
- Highly crush resistant
- Only patented roll-lock, gas tight seams
- Lifetime transferable warranty

HomeSaver® Dial-A-Flex™

PREMIUM HEAVY LINER RECTANGLIZED FROM ROUND FLEX

- 94 custom sizes with custom top/bottom plates to match
- 304 and 316 alloys, each with a Lifetime Transferable Warranty
- Available with one end round

USE THE CHART TO FIND YOUR DIAL-A-FLEX SIZE

Down the left side of the chart find the Dial-A-Flex small side dimension you need. Follow its row across to find the large side you need. These are outside dimensions. To get inside dimensions, simply deduct 1/4". The cross-sectional area is listed in parentheses.

TOP COMPONENTS

Finish the installation by using custom Dial-A-Flex custom top/bottom plates and top/bottom support brackets. For a cap, add an appropriate HomeSaver Chimney Protector with 12" or taller mesh.

Shipping Note A: Maximum length for these sizes is 40'.

Shipping Note B: Maximum length for these sizes is 20', and they must ship straight. Additional fees may apply.

Manufacturing tolerance: outside dimensions may be +0" to -3/8" from nominal dimensions.

Note: Factory Direct items, noted in **turquoise**, may take longer to receive and are not returnable.

HomeSaver® OvalFlex™

PREMIUM HEAVY LINER AVAILABLE IN TWO SIZES AND TWO ALLOYS

- Stainless steel thickness .018"
- 304 alloy lifetime transferable warrant for woodburning and pellet applications
- 316 alloy lifetime transferable warranty for wood, coal, oil, pellet, non-condensing gas
- Listed to UL 1777 Standard for zero clearance, and ULC 5635-00

Small OvalFlex™

DIMENSIONS

Small OvalFlex has inside dimensions of approximately 4.5" x 10 3/8"—the correct dimensions for venting 5" and 6" diameter flues (add 1/4" for outside dimensions for OvalFlex).
OD is 4.75" x 10 5/8"

Large OvalFlex™

DIMENSIONS

Large OvalFlex has inside dimensions of approximately 4.5" x 13 3/8"—the correct dimensions for venting stoves with 7" and 8" diameter flue collars without downsizing. OD is 4.75" x 13 5/8"

Joining OvalFlex to Pro, UltraPro, or RoundFlex

Use a connector/adaptor listed with the appropriate flex in conjunction with the properly sized S-O Adaptor to create a male-end-down connection.

HomeSaver® RectangleFlex™

PREMIUM HEAVY LINER

- 4 interlocked plys or strips of .018" stainless steel
- Relines 8" x 12" flues without downsizing
- 304 alloy Lifetime Transferable Warranty for woodburning and pellet applications
- 316 alloy Lifetime Transferable Warranty for wood, coal, oil, pellet, non-condensing gas
- Listed to UL 1777 Standard for Zero Clearance
- Listed to ULC S635-00

Heavy Liner RectangleFlex™

CROSS-SECTION

RectangleFlex's interior cross-sectional area of 54.5" square inches is more than an 8" round pipe's 50.25" total area. RectangleFlex allows venting an 8" appliance without downsizing.

DIMENSIONS

RectangleFlex inside dimensions are 5.75" x 9.5". Outside dimensions are 6" x 9.75".

OTHER SIZES

For other rectangular sizes, see our 94 rectangular Dial-A-Flex sizes on page ## and our Fireplace Flex on page ##.

Tee with Removable Take-Off and Cover

- 304 alloy or 316 alloy
- Two-piece 8" round removable take-off: 1) a ring that fits from the inside, and 2) the take-off, which fastens to the

ring with two radiator hose-type clamps

- Tee cover is sold separately

DESCRIPTION		304 Alloy	316 Alloy
Tee, with 8" diameter removable take-off, 13 7/8" H	Item #	COP21470	COP21094
Tee Cover, sold separately	Item #	COP21472	COP21095

HomeSaver® FireplaceFlex™

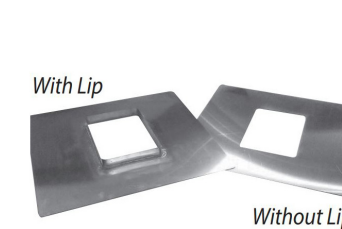

PREMIUM HEAVY LINER

- 8" x 12" and 12" x 12" for maximum draft in two standard flue sizes
- 4 interlocked plies or strips of .018" stainless steel
- Remember to use insulation in wood burning applications.
- 304 alloy Lifetime Transferable Warranty for woodburning and pellet applications
- 316 alloy Lifetime Transferable Warranty for wood, coal, oil, pellet, non-condensing gas

Cut-To-Length FireplaceFlex™

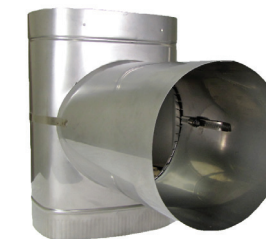

DESCRIPTION	Inside Dimensions	Outside Dimensions, Tolerance: +0" to -3/6"
8" x 12" FireplaceFlex	7.25" x 11.25"	7.5" x 11.5"
12" x 12" FireplceFlex	10.25" x 10.25"	10.5" x 10.5"

Custom Order Components for FireplaceFlex™

Top/Bottom Plate

- Available factory-direct
- Made to your specified dimensions up to 33" x 33"
- Can be made with or without lip

Tee with Removable Take-Off

- Available factory-direct
- Made to your specified dimensions of the diameter of removable take-off
- Made to your specified alloy

For the top termination, use:

1. An 18-gauge custom top/bottom plate,
2. A set of our top/bottom support brackets, and
3. A cap with a high screen — 10" or taller mesh. Try a HomeSaver Chimney Protector

A NOTE ABOUT SAFETY

FlexWrap super wrap is an Alkaline Earth Silicate wool with less bio persistence. Its particles dissolve quickly in the body, thus, posing a significantly reduced health risk. We do, however, recommend a respirator be worn when using this product.

When should I insulate?

Every time you do a HomeSaver relining job to meet the UL Listing Standards, you must use only HomeSaver Foil-Face FlexWrap, SuperWrap, HomeSaver InsulationMix, or TherMix. When you reline with Forever Flex or Hybrid to meet the UL Listing standards, use only HomeSaver Foil-Face FlexWrap, SuperWrap, Everguard InsulationMix, or TherMix.

HomeSaver liners and insulation are intended for relining masonry chimneys. They are also UL Listed to line factory-built chimneys when used with our Factory-Built Liner Adaptor.

Why should I insulate?

Two reasons to insulate:

- First, under hot flue conditions, insulation keeps the high temperature from spreading through the masonry chimney to exterior combustibles.
- Second, insulation keeps flue gases warm, stabilizing draft for peak efficiency, and minimizing creosote and condensation problems.

Insulation Rolls

INSULATION FOR EVERY LINER LENGTH AND DIAMETER

- Ceramic blanket, covered with 2 mil thick foil in 1/4" and 3 mil thick foil in 1/2"
- UL/ULC Listed with HomeSaver, ForeverFlex & Hybrid liners

Foil-Face FlexWrap™ is made of special ceramic fibers that resist separation, making it perfect for installations with bends and offsets. It also helps to center your liner properly in the chimney. Two wraps of 1/4" Foil-Face Wrap meets the UL 1777 zero clearance listing. One wrap of 1/2" Foil-Face FlexWrap™ meets the UL 1777 zero clearance listing.

Seal the seam with foil tape and cover it with ArmorMesh.

HomeSaver® Non-Foil-Faced FlexWrap™

This non-foil-faced insulation is not UL Listed for use with chimney liners, but it is great when you need only small pieces for stuffing into nooks and crannies. Non-Foil-Faced FlexWrap can also seal the space between an insert shroud and the fireplace facing, or between frames of glass door fireplace facing.

Note: Non-Foil-Face FlexWrap is not UL Listed for relining

Blanket Insulation Essentials

KEEP INSULATION SECURE

ArmorMesh

PROTECTION FOR THE INSULATION

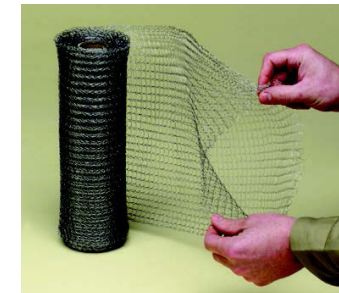

ArmorMesh is required as part of a UL Listed installation. This 304 stainless steel wire mesh, woven in a tube, encases the blanket insulation and holds it close to the pipe. ArmorMesh also makes FlexWrap highly resistant

to tearing during installation. Many stainless liner installers also use one or two wraps of stainless steel wire spiraled up and down the length, over the ArmorMesh.

An alternative to traditional ArmorMesh is Tight Weave ArmorMesh. It has a smaller loop structure which strongly resists snagging in rough flues.

When you're wrapping FlexWrap™ around a liner, you'll

need an adhesive to hold it in place temporarily while you apply ArmorMesh and aluminum foil tape. Use 3M Adhesive, a spray-on, to get your wrap started.

25' roll of ArmorMesh opens into a "tube"...

...which slips around the insulated liner. Try pre-rolling mesh like a nylon stocking, then unrolling around liner.

With one end of ArmorMesh clamped to the liner, pull the other end to snug along entire length.

Clamp second end of ArmorMesh to liner and trim excess ArmorMesh.

ARMOR-MESH

ArmorMesh - Use with 3"- 6" Flex

	12" X 25' Roll	12" X 30' Roll	12" X 35' Roll
Item #	COP15112	COP15114	COP15116
Part #	INM-SM	—	—

ArmorMesh - Use with 7"–9" Flex, Small OvalFlex™, RectangleFlex™, 8" x 12" FireplaceFlex™

	18" X 25' Roll
Item #	COP15118
Part #	INM-LG

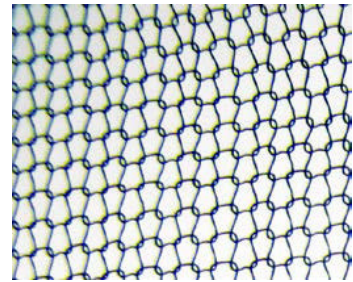

ArmorMesh - Use with 10"–16" Flex, Large Oval, 12" x 12" FireplaceFlex™

SIZE	24" X 25' Roll
Item #	COP15124
Part #	INM-ELG

Blanket Insulation Essentials (continued)

TIGHT WEAVE ARMORMESH

Tight Weave ArmorMesh

Use with 3"- 6" Flex

	12" X 25' Roll	12" X 35' Roll
Item #	00297290	00297291
Part #	54-0610-1068	54-0610-1069

Tight Weave ArmorMesh

Use with 7"-9" Flex, Small OvalFlex™, RectangleFlex™, 8" x 12" FirePlaceFlex™

	18" X 25' Roll	12" X 35' Roll
Item #	00297292	00297291
Part #	54-0610-1068	54-0610-1069

Tight Weave ArmorMesh

Use with 10"-16" Flex, Large Oval, 12" x 12" FirePlaceFlex™

	24" X 25' Roll
Item #	00297293
Part #	INM-LG

SECURING AGENTS

Make-A-Clamp System

Mini-Kit Includes:

- 8 1/2' of band, three adjustable fasteners, and one band splice
- Enough for three, 8" diameter clamps

Maxi-Kit Includes:

- 50' of band, 10 adjustable fasteners, and five band splices
- When combined with box of 10 extra fasteners, is enough for 20, 8" diameter clamps

LENGTHS		3" x 50 Yard Roll	
Mini Kit	Item #	COP39010	
Maxi Kit	Item #	COP39020	
Extra Fasteners - Box of 10	Item #	COP39030	

304 Stainless Wire

	21-Gauge, 1 lb Can
Item #	COP16100
Part #	INC-WIRE

Aluminum Foil Tape

	3" x 50 Yard Roll
Item #	COP90100
Part #	INT-TAPE

3M Adhesive

	16.5 oz. spray can
Item #	00441395
Part #	—

Pouring Insulation

APPLY AFTER LINER IS IN PLACE

HomeSaver® InsulationMix™

HomeSaver InsulationMix is listed to the UL 1777 Zero Clearance insulation for HomeSaver Relining Pipe. Also use for ULC S635-00 standard. Each bag fills 2.0 cubic feet of space Mix with 4-7 gallons of water.

	2.0 Cubic Ft. Bag	Pallet Of 55 Bags
Item #	* 03603931	03603932

*Item # 03603931 is Shipped in a box

TherMix™ Insulation

TherMix is listed to the UL 1777 Zero Clearance insulation for all HomeSaver Relining Pipe. Each bag fills 2.4 cu ft Mix with 7-9 gallons of water.

	2.4 Cubic Ft. Bag	Pallet Of 40 Bags
Item #	COP18100	COP18105
Part #	RNS-TMX	RNS-TMG

*Shipped in a box

EverGuard® Insulation

Everguard Pour Down Chimney Insulation Mix is listed to the UL 1777 Zero Clearance insulation for all Olympia's lining systems Each bag fills 2.5 cu. ft.

	2.5 Cubic Ft. Bag, Single	Pallet Of 40 Bags
Item #	03601656	03601657
Part #	—	—

Volume Calculation and Preparation

HOW MUCH DO I NEED?

1. **Multiply** the inside dimension of the chimney (in inches)
2. **Subtract** the area of the liner
3. **Multiply** this number by the chimney height (in feet)
4. **Divide** this number **by 461**, the answer is the number of bags you will need

Snap Wrap™ Insulation

For use with Rhino Rigid liner. UL/ULC listed to 0" to 0" clearance inside masonry chimney. Not ceramic wool, proven non-carcinogenic in European testing.

SIZE		8 Sections Per Box
5"	Item #	03601539
	Part #	INSW-5

...using HomeSaver® Pro™ or UltraPro™

Relining Installations (continued)

Typical Chimney Relining Installations

Use these drawings to help envision your installations and to communicate them to your customers.

Note: UL/ULC Listed installations are outlined in manufacturer's installation instructions which accompany Heat-Fab, Ventinox, and HomeSaver pipe. Read them carefully in order to represent UL/ULC Listed installations properly.

HomeSaver® flexible liners bottom terminations

On pages 11 and 12 are typical bottom terminations for fireplaces, fireplace inserts, and woodstoves. Note 1) the alternative terminations, and 2) the differences between installations for HomeSaver RoundFlex, Pro, and UltraPro.

HomeSaver® flexible liners top terminations

See page 13 for typical top terminations for HomeSaver lining systems. Note the difference in components when using RoundFlex, Pro, and UltraPro.

HomeSaver® factory-built chimney lining system

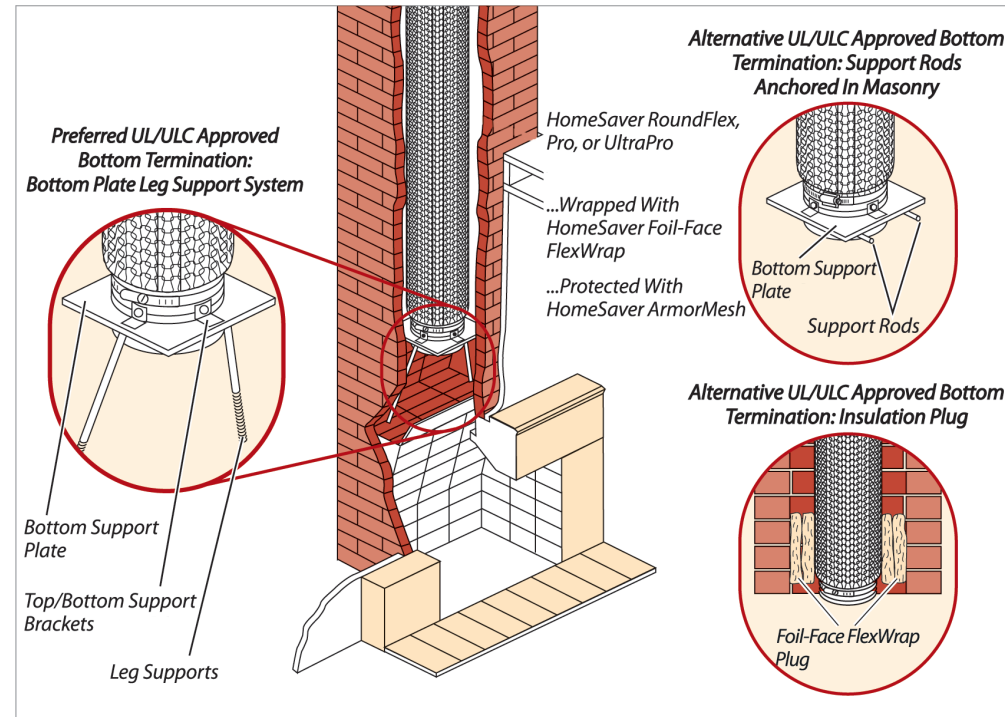

Page 13 shows our system for relining chimneys of factory-built fireplaces.

Rigid liners

Page 13 shows a typical rigid stainless steel liner system, as applied to a woodstove installation.
