

Portable Job Light-2

PJL-2

This compact, powerful 'do-it all' light is the one you'll reach for again and again.

Every Emergency Kit Needs The Portable Job Light-2!

- The heft of the newly designed handle/stand is our most powerful upgrade.
- Larger, stronger handle magnets ensure secure hold in any position
- Expanded USB ports for easy charging.
- 3-mode COB LED work, play and job light – cordless, durable, and long running!
- High, low and strobe light modes use Soft-Touch technology.
- 4-hour run time.
- 750 lumens maximum output.
- Built-in rechargeable lithium battery in standard USB port. Includes 10' USB cable for charging.
- Handle/stand rotates 180 degrees.
- Extra powerful magnets on handle/stand add stability as well as options for precise positioning of light in your work area – securely attaches to horizontal and vertical metal surfaces.
- A necessity for your service vehicle, home, car, camper, and boat.
