

VALVE CORE TOOLS

Premium Valve Core Tools

- Remove and replace damaged valve cores in systems under pressure
- Fully remove valve cores to increase speed of evacuation and/or charging process
- Precision machined from high quality materials to ensure long life and leak free service
- Available with or without side access port

Benefits Benefits of a Side Port

- Enables connection of a vacuum gauge directly at the system
- Close ball valve to isolate the vacuum gauge and system from all service hoses, manifold & pump connections while performing a pressure rise test
- Eliminates possibility of introducing air into a system when transitioning from evacuation to charging process
