

WT8840 Water Heater Control

Control Replacements Made Easy

Grow your service sales with the Honeywell WT8840

WT8840 Water Heater Control

Stock less. Sell more. With Honeywell WT8840 Water Heater Controls, only four models are needed to replace multiple AO Smith and Bradford White controls. You can consolidate your inventory while opening up more sales opportunities and capturing more business.

Plus, with the affordable cost and easy installation, you'll make more profits per job — all while delivering great value and quality for your customers!

Stocking needs go down while your service sales go up!
