Whether you have 2, 3, or 20 pipes running side by side, the Manifold Pipe Clip has the ability to connect to each other to form a manifold system that keeps your pipes neat and organized. The snap lock cross arm completes the installation, giving you a strong and professional way to hang your pipe.

SIMPLIFY YOUR JOB

Our Patented Keyhole design allows for faster and easier installation which makes for a labor saving, more profitable job. Simply, pre-screw or nail the floor joists where the length of the pipe is to be installed, slip the hanger over the pipe and do not open the hanger. Lift the pipe by the hanger and slide the hanger over the screws that are mounted to the floor joists.

Band Iron with Reverse Keyhole

The reverse keyhole allows you to hang the pipe and adjust later!

PROUDLY MADE IN THE USA

Our perforated hanger strapping is used to hang insulated flexible duct, round pipe, or regular duct. This helps prevent the duct system from sagging over long runs. The reverse keyhole design simplifies your job by allowing you to hang your pipe and adjust it later!

Please see page 18 for additional details

STEP 1

STEP 2

STEP 3&4

Step 1: Pre-install nails/screws into stud

Step 2: Hang one end of band iron on screw

Step 3: Wrap band iron around pipe

Step 4: Locate reverse keyhole and hang onto screw

DWV Hangers

Designed for rapid installation of both ABS and PVC plastic DWV piping systems.

For suspension of non-insulated stationary pipe lines

Used at any point along the slot side of the channel and are inserted into the two channel returns

Designed for copper, black iron pipe, PVC and ABS for fastening of the piping for any industry

PROUDLY MADE IN THE USA

Our split ring hangers and ceiling flanges were first designed and manufactured in 2019.

In addition to these products being made here in the USA, they are specifically created with plumbers in mind. We want to make your job easier - making sure you get the job done quickly, easily, and accurately.

Split Ring Hangers

COPPER AND GALVANIZED

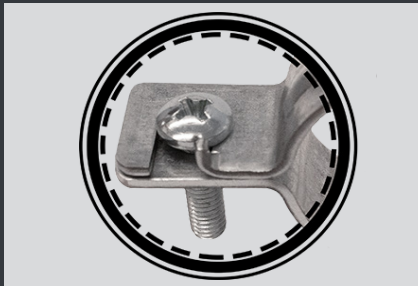

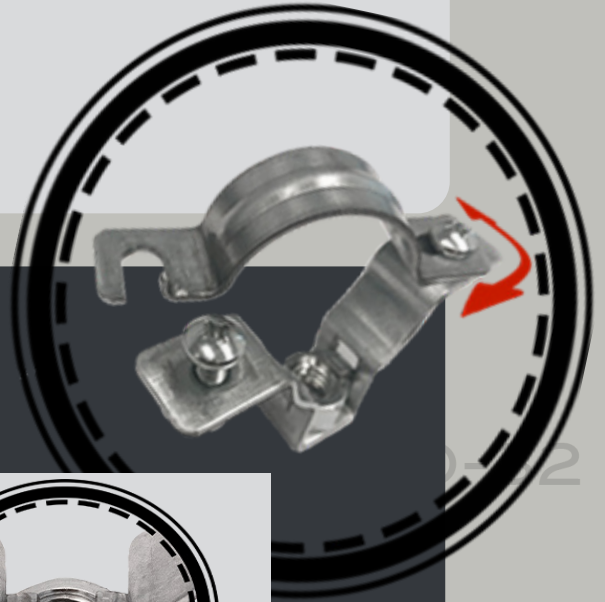

Used to suspend black iron pipe and copper tubing from joists, steel beams, wooden rafters, or walls. They can be used in both vertical and horizontal applications.

Size Range: 1/2" - 2"

Packaged: 25

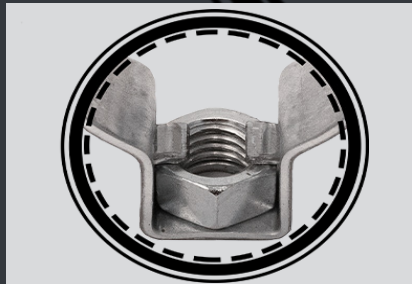

SWING GATE

T-ROD STOP

Easy-Open Gate

Gone are the days of dropping screws! Keep the screw in and swing the top open!

T-Rod Stop

Prevents threaded rod from coming into contact with pipe.

Please see page 25 for additional details

Domestic Split Ring Hangers

Galvanized Split Ring Hanger

Used to suspend black iron pipe from joists, steel beams, wooden rafters, or walls. They can be used in both vertical and horizontal applications.
