

■ Product Line Introduction

Zilmet is one of the oldest and largest expansion tank manufactures in the world. Established in Italy in 1962, Zilmet is an international manufacturer of quality expansion vessels, pressure tanks and plate heat exchangers with several branches and worldwide distribution.

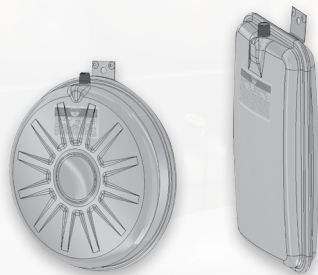

Zilmet is an ISO 9001 certified company that produces in excess of 5 million tanks and 1 million heat exchangers every year. We take great pride in our globally renowned quality and service and look forward to sharing our story and products with you and your customers.

With our North American Headquarters in East Greenwich, Rhode Island, Zilmet is proudly introducing new products for the hydronic, water system and solar industry into North America.

Well Tanks

- 150 psi max working pressure
- Low profile design with full diaphragm prevents excess wear and tear resulting in longer tank life
- The side connection provides for:
 - Easier and quicker installation
 - Less expensive installation
 - Less vulnerable to corrosion at the connector
- Powder coated for a longer lasting, more durable finish
- Stainless steel connector
- NSF 61 Certified

Flat Hydronic Expansion Tanks

- Available in 2.1 and 4.8 gallon sizes
- Ideal for tightly spaced installations
- Perfect compliment to wall hung condensing boilers
- Only flat hydronic tank in North America
- Comes with welded bracket and union with two way check valve

Hydronic Expansion Tanks

- Full line ranging from 2.1 gallons to 184 gallons
- Side connection (on stand models) allows for easier and quicker installation
- Shorter, wider design leads to longer life

Stainless Steel Tanks

- The only full line of stainless steel expansion tanks ranging in size from .04 gallons to 26.4 gallons
- Many models are NSF 61 certified
- Used in manufacturing, high corrosive areas, in the dairy and beverage industry, with variable speed pump systems, rainwater collection, etc...

Thermal Expansion Tanks

- Full line of thermal expansion tanks with a stainless steel connection
- Side connection on models with a stand for easier and quicker installation

Solar and Pre Vessel Expansion Tanks

- The only full line of solar expansion tanks in the industry
- Sizes range from 3 gallons to 158 gallons
- Wide range of prevessels

ASME Tanks

- Full line of ASME tanks
- Both diaphragm and replaceable bladder models
- Hydronic, thermal expansion and Hydro-pneumatic models

Brazed and Plate Heat Exchangers

- Full line available.
- Ideal for hydronic and refrigeration use

Ultra Pro Tanks with Replaceable Bladder

- These tanks offer unlimited service as the bladder is easily replaceable
- A full range of replaceable bladder expansion tanks ranging from 2 gallons up to 260 gallons
